BENJAMIN KLINGER

ARCHITECTURE | DESIGN | CONSTRUCTION

San Francisco, CA | Open to relocation bmk906@gmail.com 240.330.7549 bmk906.github.io/web-portfolio

1 PROFILE

Architectural designer with 3+ years of experience at a small design practice, taking projects from sketch to construction. Experience spans residential, school, and civic projects through schematic design, design development, construction documents, bidding, and construction administration. Collaborates directly with clients, consultants, and contractors to resolve design and construction issues. Seeking a detail-driven practice that values the craft of Architecture.

2 EXPERIENCE

Dreiling Terrones Architecture — Project Manager Burlingame, CA | 2023–Present

- Deliver residential and institutional projects ranging from ADUs and single-family homes to schools and a fire station.
- Develop projects across all phases, including schematic design, design development, construction documents, bidding, and construction administration.
- Prepare permit submittal packages through code research and developing and documenting plans, sections, elevations, and construction details.
- Coordinate architectural design across consultant disciplines and communicate with clients and contractors to resolve design and construction issues.
- Manage project delivery by preparing contract proposals, creating bid sets, coordinating bid proposals, and responding to RFIs and Submittals during construction.
- Produce design studies and custom construction details that translate design intent into buildable solutions.

3 SELECTED PROJECTS

P.01	**Station 1**	Civic	Sonoma County, CA	Construction Documents
P.02	**Hummingbird**	Single-Family Residence	Woodside, CA	Schematic Design
P.03	**Burlingame ADU**	Accessory Dwelling Unit	Burlingame, CA	Under Construction
P.04	**Concord Way**	Single-Family Renovation	Burlingame, CA	Built
P.05	**Hillsborough**	Single-Family Renovation	Hillsborough, CA	Built

4 PREVIOUS EXPERIENCE

Ethos Architecture — Intern Summer 2023
Drafted working drawings for a new branch of restaurant chain, Modern Market.

Rad Lab, University of Miami — Volunteer 2018–2020
Created and tested Arduino prototypes for smart-home applications.

George Mason University — Intern Summer 2018
Analyzed and plotted hurricane data in MATLAB to study how hurricanes affect total precipitation across the U.S.

5 EDUCATION + SKILLS

Education
University of Miami
B.Arch | 2023
Dean's List
Rome Program, Fall 2022

Core Skills
Concept Development · Construction Detailing · 3D Modeling · Parametric Modeling · Code Research + Permitting · Consultant Coordination · Construction Administration · Hand Sketching

Software
AutoCAD · Grasshopper · Revit · Rhino · Vectorworks · V-Ray · Illustrator · InDesign · Photoshop · ArcGIS
